OFFICE OF THE
INSPECTOR OF PRISONS AND PUBLIC CHARITIES, ONTARIO,
PARLIAMENT BUILDINGS, TORONTO, December, 1892.

SIR,—I have the honor to transmit herewith, to be presented to his Honor the Lieutenant-Governor, the Twenty-third Annual Report upon the Hospitals, for the official year ending on the 30th September, 1892.

I have the honor to be, Sir,
Your most obedient servant,

T. F. CHAMBERLAIN,
Inspector.

The Honorable
J. M. GIBSON, M.P.P.,
Secretary of the Province of Ontario,
Toronto.

HOSPITALS.

TWENTY-THIRD ANNUAL REPORT

OF THE

INSPECTOR OF PRISONS AND PUBLIC CHARITIES.

FOR THE

PROVINCE OF ONTARIO.

PARLIAMENT BUILDINGS,

Toronto, December, 1892.

*To the Honorable GEORGE AIREY KIRKPATRICK, Lieutenant-Governor of the
Province of Ontario.*

MAY IT PLEASE YOUR HONOR:—

I beg to submit herewith the Twenty-third Annual Report upon the Hospitals of Ontario, being for the official year ending on 30th September, 1892.

I have the honor to be,

Your Honor's most obedient servant,

T. F. CHAMBERLAIN,

Inspector.

CONTENTS.

	PAGE.
Additions made to list of Hospitals aided by the Province.....	1
Establishment of additional Hospitals spoken of	1
Summary of number of patients treated since 1878	2
Increase in patients treated in Hospitals	2
Increase in number of patients general.....	2
Grants to Hospital, summary of	2-3
Cost of maintaining Hospitals	3
Movements of patients in each Hospital, table shewing	4
Sex, religious denominations and nationalities of patients, table shewing	5
Diseases, table of.....	6-9
Collective and average stay of patients, table shewing.....	10
Deductions to be made from aggregate stay of patients, table shewing	11
Revenue of Hospitals, table of	12
Grants earned by Hospitals, table of	13
Basis upon which Statutory Aid is granted	13
Maintenance expenditures, table of.....	14
Average cost per patient in each Hospital, 1883 to 1892.....	15
Proportion of maintenance of Hospitals paid by Government, table shewing.....	16
Separate reports upon Hospitals	17-87
General Hospital, Toronto.....	20
Homœopathic Hospital, Toronto	20-22
Hospital for sick children	25
City Hospital, Hamilton	25-27
St. Joseph's Hospital, Hamilton	27-29
General Hospital, Kingston	29-32
Hotel Dieu Hospital, Kingston	32-34
General Protestant Hospital, Ottawa	34-37
Roman Catholic Hospital, Ottawa	37-39
House of Mercy Lying-in Hospital, Ottawa	39-41
General Hospital, London	41-43
St. Joseph's Hospital, London.....	44-46
General and Marine Hospital, St. Catharines	46-48
General Hospital, Galt	48-50
General Hospital, Guelph	51-53
St. Joseph's Hospital, Guelph	53-55
General Hospital, Pembroke.....	56-58
General Hospital, Mattawa	58-60

John H. Stratford Hospital, Brantford	60-62
St. Joseph's Hospital, Port Arthur	63-65
Belleville Hospital	65-67
St. Vincent De Paul Hospital, Brockville	67-69
The Brockville General Hospital, Brockville	70-72
General and Marine Hospital, Collingwood	72-74
The Nichols Hospital, Peterborough	74-76
St. Joseph's Hospital, Peterborough	77-79
Hotel Dieu Hospital, Windsor	79-81
St. Joseph's Hospital, Chatham	82-84
General Hospital, Stratford	84-87

HOSPITALS.

There have been two new hospitals added to the list this year, namely :

St. Joseph's Hospital, Chatham. The General Hospital, Stratford, and they will be entitled to receive grants under the Charity Aid Act.

The total number of hospitals now receiving aid from the Province is twenty-nine, and there are several others in operation and in course of erection at different points throughout the Province which will, no doubt, make application for provincial aid.

Owing to the liberality of the Government in contributing towards the maintenance of such institutions there is a growing tendency to multiply their number. I approve of this disposition on the part of the citizens of towns and cities where there exists a necessity for hospital accommodation ; but considering the large and increasing amount thus contributed yearly by the Government, it becomes worthy of consideration whether the Government ought not to assume greater powers than it has hitherto exercised as to the necessity for increased hospital accommodation in any locality before a new enterprise is undertaken, and require in every case where provincial aid is expected that the details thereof shall be submitted for the approval of the Inspector.

The amount of the legislative grant is increasing yearly :

In 1890 it was	\$73,723 96
“ 1891 “	89,002 50
And this year	99,341 79

The average this year amounts to 30.93 per cent. of the whole cost of maintenance of these institutions.

Table No. VIII shows the daily cost per patient for maintenance in each hospital, the following Table No. IX. shows the comparative cost per patient daily for the last 10 years, and in table No. X will be seen the proportion in each case which is paid by the Government. This ranges from 60.23 per cent. down to 7.27 per cent. There can be no question, having reference to the above figures, as to these institutions being most liberally supported by the Government, and this should be a strong incentive to the inhabitants of a locality where a hospital is situated to give it their generous support. It will be seen from the statements

following that in the last year the number of persons treated in the hospitals of the Province has greatly increased from year to year, the ratio of increase being far greater than the increase of our population.

The following comparative statement shews the numbers treated in all the hospitals in each of the past fifteen years, with the increase or decrease in each successive year as the case may be :

			Increase.		Decrease..
1878	4,372	295
1879	4,612	240
1880	5,302	690
1881	5,257 45
1882	6,032	775
1883	6,238	206
1884	6,369	131
1885	6,617	248
1886	7,035	418
1887	7,522	487
1888	8,292	770
1889	8,561	269
1890	9,187	626
1891	10,523	1,336
1892	11,404	881

It will be noticed by those who take an interest in the working of our hospitals that the statistics show a very material increase (881) over the number of patients under treatment in 1891, which is a further proof that the people of Ontario fully appreciate the efficiency and usefulness of our hospitals.

It will also be noticed in Table I. that the deaths number 71 over that of 1891, but when the increased number of patients is taken into account the death rate in our hospitals is exceedingly small, 15.04 per cent. being a shade lower than even that of 1891, which had reached the minimum of former years.

Tables VI. and VII. shew the manner in which the amounts the Legislature will be asked to vote as grants to the hospitals are made up. The following statement is a summary of the totals of these tables, and shews the sums which will be asked for each hospital, as well as the total :

General Hospital, Toronto	\$24,067 84
Homœopathic Hospital, Toronto	2,903 48
Hospital for Sick Children, Toronto	7,266 00
City Hospital, Hamilton	6,429 47
St. Joseph's Hospital, Hamilton	2,360 70
General Hospital, Kingston	5,887 26

Hotel Dieu Hospital, Kingston	\$3,909 79
General Protestant Hospital, Ottawa.....	5,043 52
Roman Catholic Hospital, Ottawa.....	5,464 68
House of Mercy Lying-in Hospital, Ottawa.....	2,126 79
General Hospital, London	5,325 23
St. Joseph's Hospital, London.....	1,409 30
General and Marine Hospital, St. Catharines	1,846 58
Galt, Hospital, Galt	1,175 27
General Hospital, Guelph	2,957 58
St. Joseph's Hospital, Guelph.....	2,739 99
General Hospital, Pembroke	1,430 54
General Hospital, Mattawa.....	1,869 66
J. H. Stratford Hospital, Brantford	2,322 82
St. Joseph's Hospital, Port Arthur.....	1,134 89
Belleville Hospital, Belleville.....	1,761 42
St. Vincent de Paul Hospital, Brockville	1,818 27
The Brockville General Hospital, Brockville	1,256 06
General and Marine Hospital, Collingwood	512 82
Nichol's Hospital, Peterborough.....	2,087 66
St. Joseph's Hospital, Peterborough	844 54
The Hotel Dieu Hospital, Windsor	1,137 68
St. Joseph's Hospital, Chatham	1,218 30
General Hospital, Stratford	1,033 65
<hr/>	
Total	\$99,341 79

The amount asked for in 1891 was \$89,002.50, or \$10,339.29 less than the above.

In Tables VIII., IX. and X. will be found details of the cost of maintaining the various hospitals. The daily cost per inmate in 1892 was 79.31 cents per day.

The proportion of the Government grant to the total maintenance expenditure, as shewn in Table X., decreased from 32.10 per cent. in 1891 to 30.93 per cent. in 1892.

The Tables numbered I. to X. will be found in the following pages, and following them are the separate reports upon each of the hospitals which give full information as to the movements of patients, the sanitary and other conditions of our respective institutions.

TABLE I.—Shewing general movements of Patients in each Hospital separately.

Hospitals.	Number remaining under treatment on 1st October, 1891.	Number admitted during the year ending 30th September, 1892.	Number of births in Hospital during the year.	Total number under treatment during the year ending 30th September, 1892.	Number discharged during the year.	Number who died during the year.	Number remaining under treatment on 30th September, 1892.

Supplementary allowance, at 10 cents	7,911 50
Allowance for improper cases for hospital treatment, 4,762 days at 7 cents	333 34
Total	<u>\$24,067 84</u>

INSPECTIONS.

I made an inspection of the General Hospital, Toronto, on the 13th May. The number of patients registered as under treatment on that day was 233. The record for the current year is as follows: Admissions, 1,745; deaths, 142; births, 71. There were also treated as outdoor patients, in the month of October, 1,082; November, 971; December, 977; January, 979; February, 1,048; March, 1,223; April, 1,108. There were 65 nurses under training at the time of my visit. Every department of the Hospital was clean and in good order.

A new wing has been built during the past winter for the reception of patients, and for clinical and laboratory purposes. This wing adjoins the amphitheater, and is a valuable addition to the Hospital.

This Institution is being largely taken advantage of by the sick and diseased from all parts of the Province, and it is thus doing a large provincial, as well as city work. It is the best Hospital in the Province, as regards accommodation and management.

I beg to report the General Hospital, Toronto, was inspected by me on the 10th November. There were 203 patients (130 males and 73 females) in the Institution on that day, distributed as follows: Burnside Lying-in department, 6 females; eye and ear infirmary, 12 males and 3 females; pavilion for special diseases of women, 12 females; general medical, surgical and other cases, 118 males and 52 females.

During the past summer general repairs have been made to the building. The old boiler on the west side has been taken out and replaced by two large new ones. A brick building has been added lately, at the rear of the operating theatre, for the treatment of external patients only. Over 12,000 of this class have been treated during the last year. There are separate admitting rooms, etc.

The Board of Trustees are composed of Messrs. Walter S. Lee, Chairman, George Gooderham, J. L. Blaikie, Hugh Ryan and the Mayor, *ex-officio*. The vacancy caused by the death of Mr. D. A. O'Sullivan has been filled by the appointment of Mr. Hugh Ryan.

Diphtheria and scarlet fever cases are not now admitted to the General Hospital, they being placed under the care of the Local Board of Health, in the Isolated Hospital over the Don.

Upon an inspection of the books I found that only 21 of the 203 patients had been admitted prior to August 1st, showing that very few chronic cases were in the Hospital. All the books were in proper order.

This Institution is very ably managed by Dr. Charles O'Reilly, who takes a great interest in the welfare of the patients.

HOMCEOPATHIC HOSPITAL, TORONTO.

The following summaries shew the operations of this Hospital during the official year :

Movements of Patients.

Number under treatment in the Hospital 1st October, 1891	-	29

INSPECTIONS.

I visited the Homœopathic Hospital, Toronto, on the 20th May.

There were 19 patients on that day, 9 men and 9 women and 1 child. There have been treated since the 1st October last, 104 patients; five deaths have occurred during the same period.

Every department was clean and tidy. About one-fourth of the patients pay from \$6 to \$10 per week. There are 13 nurses in training; they receive from \$2 to \$6 per month. A separate building has been erected at a little distance from the Hospital, which is used as a maternity ward, and there were 10 mothers and 8 children in it at the time of my visit.

INSPECTIONS.

I visited the Hospital for Sick Children, Toronto, on the 5th May

This is the only hospital in the Province especially designed for the treatment of sick children. It is well located, and fitted up with the most modern improvements, and in every respect is a model hospital. The drainage and ventilation are good, and the character of the plumbing is excellent. The bath-rooms, water-closets and wash-rooms are conveniently situated to the sick wards on each flat, from the basement to the attic. The building is equipped with proper fire appliances. There is an excellent staff of nurses and attendants. The Board of Trustees deserve a great deal of credit for the attention given to the oversight and management of this Institution. Much of the responsibility, both in the erection of the building and its internal management, has devolved upon Mr. John Ross Robertson, of Toronto, and to a great extent he may be said to be the founder of this Hospital, which for its size and the number it is designed to accommodate, cannot be surpassed in this or any other country.

On the day of my visit there were 82 patients—42 females and 40 males—from 2 to 14 years of age. Admitted since the 1st October, 216; discharged, 134; deaths, 7. There is accommodation for 100. The staff consists of 16 nurses, 1 resident medical man, 1 matron, 1 assistant-matron, 2 cooks, 1 laundress and 2 assistant-laundresses, 1 teacher, 1 seamstress, 4 ward servants, 2 engineers, 1 porter, 1 lady clerk in office, 1 door attendant and 2 dining-room attendants. In charge of Hospital, a medical staff of 12 doctors.

I visited the Hospital for Sick Children, Toronto, on the 10th November, and saw all the inmates, 42 boys and 30 girls, whose ages were from 3 to 14 years.

This Hospital is one of the best and most convenient in the Province. Three hundred and eighty-three children were treated during the year, and 18 died. There is a large number of nurses and attendants, and a large and efficient staff of medical officers. The Institution throughout was in the best of order.

INSPECTIONS.

I inspected the City Hospital, Hamilton, on the 6th May. On that day the patients numbered 62, viz: 37 males and 25 females. Since the beginning of the year 432 have been admitted, and 25 have died. There is accommodation for 120.

Every department was in good order. Ventilation and drainage good. The building is heated by steam and provided with city water and gas. There is a resident physician and staff of fourteen nurses. There is also a good staff of medical men in attendance. A building is now in process of erection, which is to be used as a maternity or lying-in hospital; it is expected to be completed in the fall, and will have accommodation for fifteen patients.

I made an inspection of the City Hospital, Hamilton, on the 12th Nov.

There were under treatment on that day 57 patients—34 males and 18 females. The number of patients received during the year was 734, being an increase of 42 over the previous year. There were 41 deaths during the year.

The general condition of the buildings and grounds was satisfactory. Every department of the Institution was clean and well kept. A new building has been erected on the grounds to be used as a maternity hospital, and will accommodate fifteen patients. It is heated by hot water, lighted by gas, and supplied with city water. It is fitted with bath-rooms and water-closets complete, and the plumbing is very good. The drainage and ventilation are good. There are good nurses and an efficient staff of medical and surgical attendants.

This Hospital has made considerable progress during the last two or three years. A board composed of seven aldermen manage the financial affairs of the Institution, providing all necessary funds. About ten of the patients pay from \$2.50 to \$10 per month.

The management, under Dr. Olmsted, is all that could be desired.

INSPECTIONS.

I made an inspection of the St. Joseph's Hospital, Hamilton, on the 6th May. There were then in the Institution, 11 men and 13 women. 112 have been admitted since the 1st of October last, and 3 have died. About fifty per cent. of the patients pay from \$3 to \$10 per month. There is a staff of nine medical men and six nurses. The house was in commendable order throughout, and the books were found to be well kept.

I beg to report that I made an inspection of the St. Joseph's Hospital, Hamilton, on the 12th November, and found nineteen patients, five men and fourteen women under treatment. The Hospital in every part, was clean and well kept, and the books were written up.

INSPECTIONS.

I made an inspection of the General Hospital, Kingston, on the 21st June. There were on that day 64 patients, namely: 32 men, 27 women, and 5 children.

The building was in very good order throughout. A new wash-room, bath-tub and water-closet have been fitted up on each flat of the old wing. There is good drainage and ventilation. A laundry is much required as the room at present used for that purpose, situated in the basement, is too small as well as inconvenient and unhealthy. An operating room is much needed and should be provided as soon as possible. Also a ward for lying-in cases. A morgue should be built on the premises as the room now used is not at all suitable.

There is a good staff of medical men and nurses in attendance. 15 nurses were under training at the time of my visit.

I inspected the General Hospital, Kingston, on the 28th September. There were then under treatment 27 men and 27 women— total, 54. The number treated during the year was 676, and the number of deaths 52.

The Hospital was clean, well-ventilated, and in satisfactory order throughout. A new morgue and post-mortem room was erected during the past year, new water-closets and bath-rooms have also been placed in the building. There has been quite an improvement in the management of this Hospital since Dr. Kilborn was appointed resident surgeon.

In my last minutes of inspection I called attention to the necessity for a new laundry, an operating-room, and an apartment for lying-in cases and I hope these improvements will be carried out during the ensuing year.

Total	-	-	-	-	\$3,909 79

INSPECTIONS.

I made an inspection of the Hotel Dieu Hospital, Kingston, on the 21st June. There were 39 patients on that day, viz.: 18 men, 15 women and 6 children. 287 have been admitted during the year, and 25 have died.

No changes calling for remark have been made in the Institution since my last visit, with the exception of placing some bedsteads and bedding in the different wards.

Every department was clean and in good order. There is a good staff of medical attendants as well as nurses. The books are correctly kept.

I made an inspection of the Hotel Dieu Hospital, Kingston, on the 28th September. There were 12 males and 15 females under treatment.

Up to date 405 patients have been received since the 1st October last, and during that period 24 deaths have occurred. Every department was in the best of order, clean and well kept. The old Regiopolis College building is now being fitted up for this Hospital and is expected to be ready for occupation this fall.

Supplementary allowance at 10 cents	-	-	-	1,659 80
Allowance for improper cases for Hospital treatment, 916 days, at 7 cents	-	-	-	64 12
Total	-	-	-	\$5,043 52

INSPECTIONS.

I made an inspection of the General Hospital, Ottawa, on the 8th February. The patients in residence numbered 61, 33 men, 26 women, and 2 children. There is accommodation for 90. The building has been entirely renovated and remodelled during the past year, and is now in first-class order.

It is heated by hot water, and supplied with gas and city water. The bath-rooms, wash-rooms and water-closets are in good order. Good drainage and ventilation.

A maternity department is very much required in connection with this Hospital. A wing for that purpose could be easily attached, and the Institution would then be one of the most complete in the Province. There is a good staff of medical officers and nurses. The improvements made during the past year have cost about \$5,000. A new fire escape has been erected.

I instructed Mr. Nicholson to make an inspection of this Institution. He reported as follows :

As instructed by you, I made an inspection of the General Hospital, Ottawa, on the 1st September. The patients in residence numbered 44, 26 males and 18

females. There have been admitted since the 1st October last 366 patients. There are 90 beds.

The Hospital was in good order, and there was nothing connected with its management or condition that called for special comment. The books were examined and found to be correctly kept.

Allowance for improper Hospital cases, 642 days at 7 cents	44 94
Total	\$5,464 68

INSPECTIONS.

The Roman Catholic Hospital, Ottawa, was inspected by me on the 8th February. There were under treatment on that day 70 patients, viz.: 29 males, 40 females, and 1 child. There is accommodation for 80 patients. The number admitted since the 1st October is 274; and there were 13 deaths during the same period.

The building is heated by steam, and supplied with city water. Coal oil is used for lighting. The public wards, private rooms, dispensary, bath-rooms and water-closets were found to be in good order. There is good ventilation and drainage. The books are well kept, and the management very satisfactory.

I instructed Mr. Nicholson to make an inspection of this Hospital. He reported as follows:

As instructed by you, I made an inspection of the Roman Catholic Hospital, Ottawa, on the 30th August.

The patients on that day numbered 47, of whom two were children under twelve years. All these persons were under active treatment in the wards.

The number admitted since the beginning of the year was 597, and during that period 37 deaths occurred. There is accommodation for 95.

The Institution was in the best of order throughout, and I found the records well kept.

HOUSE OF MERCY LYING-IN HOSPITAL, OTTAWA.

Allowance for improper Hospital cases, 5,577 days at 7 cents	-	390	39
Total	-	\$2,126	79

INSPECTIONS.

I made an inspection of the House of Mercy Lying-in Hospital, Ottawa, on the 6th February. There were 40 women in residence. Most of the patients pay from \$6 to \$10 per week. There is accommodation for 60.

Those of the inmates who are able to work are occupied with sewing, knitting, weaving, and some laundry work.

The Institution was clean and in good order throughout. There is a good staff of medical officers, as well as nurses. The books are well kept.

I instructed Mr. Nicholson to make the second inspection of this Hospital. His report is annexed :

According to your instructions, I made an inspection of the House of Mercy Lying-in Hospital, Ottawa, on the 1st September.

There were 26 women in residence, the majority of whom were waiting confinement. The records shewed that 181 women had been received into the Institution since the beginning of the present year. No deaths occurred during that period.

The Institution was in some disorder, consequent upon the extensive structural alterations being made in the building. When these are completed the accommodation will be considerably added to. The books were found to be entered correctly.

INSPECTIONS.

I inspected the General Hospital, London, on the 9th May. The number of patients was 48, viz.: 25 males and 23 females. There have been received into this Hospital since the 1st October 351 patients, and for the same period 29 deaths are recorded. About twenty per cent. of the patients pay from 50c. to 90c. per day.

Twelve nurses were under training in the training school at the time of my visit. There is a good staff of medical attendants.

The Hospital was in good order in all departments, and appeared to be efficiently managed. The books were found correct.

I instructed Mr. Aikens to make an inspection of this Institution. A copy of his report is annexed:

I inspected the General Hospital, London, according to instructions from you, on September the 12th. Twelve male patients, 29 females and 4 children—total 45, were being treated on the day of my visit. The building has bed accommodation for 90 patients. The ventilation, water-supply, plumbing and drainage of this Hospital were all in good order on the above date.

Ten deaths have occurred since the last inspection. Several of the patients were in the infectious wards.

On account of the absence of the Lady Superintendent, some of the Institution records could not be found. Those that I examined could be improved by adopting a little more system in keeping them.

INSPECTIONS.

I inspected the St. Joseph's Hospital, London, on the 28th March. On that day there were under treatment 13 patients, viz.: 4 males and 9 females. Several of them are pay-patients, paying from \$3 to \$8 per week.

There were admitted during the year 70 patients. Three deaths occurred during the same period. All departments were clean and in good order.

A new building on a much larger scale is in course of erection, and when completed will make this is a model hospital. The books were written up to date.

I instructed Mr. Aikens to make an inspection of this Hospital. A copy of his report is annexed.

As instructed by you, I inspected St. Joseph's Hospital, London, on June 29th. Nine female patients and three males were then being treated. The new building now in progress will be ready in six months, and will afford accommodation to 60 patients.

There has been one death since the last inspection. The general condition of the Hospital and grounds was good, considering the local disadvantages. The books also were systematically kept.

Allowance for improper cases for Hospital treatment, 404 days at 7 cents	28 28
Total	\$1,846 58

INSPECTIONS.

I made an inspection of the General and Marine Hospital, St. Catharines, on the 25th January, when there were 17 males, 12 females and 1 child under treatment. One-fourth of the patients contribute from \$3 to \$6 per week each during their stay. The Institution was in good order in all respects. It is heated with hot-air and supplied with city water. There were 10 nurses in training in the Hospital. The books were well kept.

I made an inspection of the General and Marine Hospital, St. Catharines, on the 16th September, when there were 17 patients, 6 men and 11 women. There were admitted since the 1st October, 184 patients, and during that time 14 died.

The public wards, private rooms, dispensary, dining-rooms, bath-rooms and water-closets were all in good condition. There is good drainage and ventilation. The building is heated with hot-air and supplied with city water and gas. The books were in good order.

INSPECTIONS.

I made an inspection of the Galt Hospital, on the 12th May. There were 8 patients under treatment on that day, viz: 4 males and 4 females.

The number of patients received since the 1st October was 85, and there were five deaths during the same period. I found the building in a cleanly and well ordered condition throughout, and the books correctly kept.

I visited the Galt Hospital on the 22nd November. There were then sixteen patients under treatment, 7 men, 7 women and 2 children. This is a new Hospital, and every department was found to be in perfect order and well conducted.

A morgue for this Hospital is under construction, and the authorities intend to build an infectious department next season. A new stable is also being built. There is a good supply of nurses and an efficient staff of medical attendants.

Supplementary allowance at 10 cents	954 50
Allowance for improper cases for Hospital treatment 1,344 days at 7 cents	94 08
Total	\$2,957 58

INSPECTIONS.

I made an inspection of the General Hospital, Guelph, on the 30th March. The number of patients then in residence was 32, viz: 17 men, 10 women and 5 children.

There have been admitted since the 1st October last 304, and discharged 234; deaths 38. The death rate I found to be very high, and upon enquiry it was accounted for by an epidemic of diphtheria. The deaths occurred among patients from 2 to 16 years of age.

I found, in looking over the register, that nearly all these cases were sent to the Hospital too late for treatment, some dying immediately, and others a day or two after being received.

This Hospital is well situated, has good drainage and ventilation, and is heated with hot water, this latter being introduced since my last visit. The Institution is in a very satisfactory condition in all respects. There is a good staff of medical attendants and nurses. About one-third of the patients pay a weekly rate, ranging from \$2. to \$10. per week. The books are well kept.

I instructed Mr. Aikens to make an inspection of this Hospital. A copy of his report is annexed.

As instructed by you I made the second inspection of the General Hospital, Guelph, on July 8th. On that date 21 patients were being treated 11 males, 7 females, and 3 children. This is a smaller number than usual considering that the Hospital has 60 beds.

The infectious wards and convalescent wards were entirely empty. The interior wood-work was being painted and renovated on the date of my visit and in consequence the order and discipline was somewhat interfered with. Altogether there are about 20 paid employees at this Hospital including a Swiss gentleman who has charge of the dispensing. The Institution books were very neatly kept and all entered up to date.

Supplementary allowance of one-fourth of Hospital revenue	664	52
Allowance for improper cases for Hospital treatment, 301 days at 7 cents	21	07
Total	\$2,739	99

INSPECTIONS.

I visited the St. Joseph's Hospital, Guelph, on the 30th March. There were 39 patients under treatment, namely, 15 males and 24 females. The admissions since the 1st October are 177; deaths, 4. There is accommodation for 45 patients.

The public and private wards were clean and neat. There is a good operating-room and dispensary. About one-fourth of the patients pay a weekly rate varying from \$2 to \$6 per week. The building is heated by hot-air furnace and coal stoves. The water supply is from wells. There is a separate building for contagious diseases on the premises, and there were 7 cases of diphtheria therein at the time of my visit.

I instructed Mr. Aikens to make the second statutory inspection of this Hospital. A copy of his report is annexed:

As instructed by you, I made an inspection of St. Joseph's Hospital, Guelph, on July 8th.

The register showed the names of 20 patients in residence, 8 males and 12 females. There has been considerable diphtheria in this Hospital of late years, defective drainage being the cause. On the date of my inspection the Institution was entirely free from scourge, and every effort is being put forth to prevent its return.

The wards were quite clean, and the general condition of the building and grounds was very fair. The same management of this Hospital have charge of the House of Providence adjoining. The book-keeping is done in a very simple and neat manner.

Allowance for improper cases for Hospital treatment, 92 days at 7 cents	6 44
Total	\$1,430 54

INSPECTIONS.

I made an inspection of this Hospital on the 30th May. The old premises which are still occupied, were found in proper order. The new Hospital, in course of erection, is expected to be ready for occupation next fall, and will be equipped with all modern improvements.

There were on this occasion 9 patients under treatment—4 males and 5 females. Five deaths are recorded since the 1st October. The books were correctly kept.

I instructed Mr. Nicholson to make an inspection of this Hospital. A copy of his report is annexed:

As instructed by you I visited the General Hospital, Pembroke, on the 2nd September. There were then 8 males and 5 females under treatment, of whom 5 were typhoid cases; 153 patients have been admitted since the beginning of the year. The Hospital was in good order, and there was nothing in its management calling for special comment. The books are properly kept.

Supplementary allowance, of one-fourth of Hospital revenue - - - - -	543 86
Total - - - - -	\$1,869 66

INSPECTIONS.

I visited the General Hospital, Mattawa, on the 21st April. The building is of brick, well situated on high ground, and is fitted with modern hospital appliances. The wards, dispensary, dining-rooms, bath-rooms, and water-closets, etc., are all in good order.

The water supply is from tanks in the attic, into which it is pumped by a small engine on the premises. There is a good staff of medical men and nurses in attendance, and there were ten patients under treatment at the time of my visit. Since the 1st October last, 179 patients have been received, and several have died. There is accommodation for about forty.

Only a small percentage of the patients pay anything for their care and treatment. A small addition or room near the Hospital has been fitted up during the year for contagious diseases ; it will accommodate eight patients.

Other changes since my last visit include a new chapel, laundry, and repairs to the furnace. The books were found to be properly entered up.

I made an inspection of the General Hospital Mattawa, on the 30th May. The new building which is in course of erection, will be ready for occupation in the fall it is expected. It is being fitted up with modern improvements and will be very complete.

I found the old building in good order. It is managed by the Sisters of the Roman Catholic Church. There were 4 male and 5 female patients under treatment on the day of my visit ; and there had been admitted during the year, 101. Five deaths occurred during that period.

THE JOHN H. STRATFORD HOSPITAL, BRANTFORD.

INSPECTIONS.

The John H. Stratford Hospital, Brantford, was inspected by me on the 7th May. This Hospital is well located on a hill, and has good drainage and ventilation.

Every department was clean and in good order. The patients numbered 18, namely: 12 men, 5 women and 1 child. There is accommodation for 45. About one-seventh of the patients pay for their care and treatment, the rates ranging from \$2.80 to \$8 per week. Sixteen deaths are recorded since the 1st October.

The building is heated by steam, and supplied with city water and gas. There were 9 nurses in training. The records are well kept.

I made an inspection of the John H. Stratford Hospital, Brantford, on the 22nd October. There were then under treatment, 9 males and 7 females.

All the different departments were in good order, clean and well kept. There has been no change in the premises since my last visit.

Supplementary allowance, one-fourth Hospital revenue	245 50
Allowance for improper cases for Hospital treatment, 37 days at 7 cents	2 59
Total	\$1,134 89

INSPECTION.

I made an inspection of St. Joseph's Hospital, Port Arthur, on the 29th August. There were 19 patients on that day. The number treated since the 1st October was 137, and 19 died during the same period.

The wards and private rooms were all in good order, being clean and well cared for.

The building is heated with hot water. The dispensary, nurses' apartments and bath-rooms were also in the best of order.

About one-third of those treated are paying patients, paying from four to seven dollars per week.

Water for bathing and water-closet purposes, and electric lighting, are two very desirable improvements. The books were found to be correctly kept, and the management commendable.

Supplementary allowance at 10 cents	585 60
Allowance for improper cases for Hospital treatment, 66 days at 7 cents	4 62
Total	\$1,761 42

INSPECTIONS.

I made an inspection of the Belleville Hospital on the 5th February. There were 20 patients under treatment, namely, 11 males and 9 females. One third of the patients pay from \$2 to \$7 per week.

Every department of the Hospital was in good order. There are ten trained nurses in attendance. There is accommodation for 32 patients. The books were found to be correctly kept.

I made an inspection of the Belleville Hospital on the 30th November. There were 15 patients under treatment—7 men and 8 women. All the different departments were in excellent order.

Gas for lighting was being placed in the building, and will be much more convenient and safer than the coal oil lamps.

The management is arranging for building a wing to the Hospital, to be used as a maternity department. The books were well kept.

Total	-	-	-	-	-	<u>\$1,256 06</u>

INSPECTIONS.

I inspected the St. Vincent de Paul Hospital, Brockville, on the 7th March. There is change to be noted in the condition of this Hospital since my last visit.

The management are fitting up a new building in the town which will be more convenient for hospital purposes. There were 8 patients under treatment on this occasion; 40 had been admitted since the 1st October; and 3 deaths had occurred during that period. The rooms were clean and neat and management commendable.

I inspected the St. Vincent de Paul Hospital, Brockville, on the 27th September. There were under treatment on that day two men and seven women.

There have been admitted since the 1st October 106 patients, and 11 have died. There has been no change in the building or premises since my last visit. The new building is expected to be ready for occupation some time this fall. The books were found to be properly kept.

INSPECTIONS.

I inspected the General Hospital, Brockville, on the 7th March. This Institution is well located and has good drainage and ventilation. It is supplied with water from the town service, and is lighted with electric lights.

I found every department in the best of order, and the books well kept. There were 16 patients on the day of my visit, one-third of whom pay from \$3 to \$10 per week. There have been admitted since the 1st October 60 patients, during which time two deaths have occurred.

I made an inspection of the General Hospital, Brockville, on the 27th September. The patients under treatment numbered 18, namely, 8 men and 10 women. The number treated since the 1st October was 150, and the number of deaths was 10.

A new fire escape has been placed in the building. All departments were in good order, and the books entered up to date.

INSPECTIONS.

I made an inspection of the Nichols Hospital, Peterborough, on the 14 January. On that day there were 17 patients—7 men, 9 women, and 1 child. The public wards and private rooms are well looked after. Every department of the Hospital is convenient and well arranged for the treatment of the sick. A new wing has been added during the past year, to be used for contagious diseases. It is fitted up with all modern conveniences, and can be kept entirely separate from the main institution when necessary.

Mr. Mann made the second inspection of this Hospital. He reported as follows :

As instructed by you I made an inspection of the Nichols Hospital, in the Town of Peterborough, on the 20th Sept., of this year, on which date there were 20 patients in the Hospital—8 males and 12 females, most of whom were progressing to convalescence. The proper working of this Institution was rather impeded owing to the illness of the Superintendent and no less than four of the nurses, who were suffering from fevers. Additional aid was being procured and no doubt if proper precaution is exercised no serious results will follow. Additional help was being obtained from Toronto. I examined the books and the building generally and found everything satisfactory.

INSPECTIONS.

St. Joseph's Hospital, Peterborough, was inspected by me on the 14th January. There were on that date 14 patients—9 males and 5 females. The Hospital was found to be in good order in all its departments, and the records were correctly kept.

Mr. Mann made the second inspection of this Hospital and reported as follows :

According to your instructions, I made an inspection of this Hospital on the 20th September, 1892. There were on this date 5 male and 5 female patients in the Institution receiving treatment for various complaints. The work of this Hospital is progressing favorably without much variation, and it has every appearance of being ably managed. I found the building very tidy, and clean. The books were also in proper form.

INSPECTIONS.

I made an inspection of the Hotel Dieu Hospital, Windsor, on the 26th June. On that day there were 13 patients—6 men and 7 women.

Every department, from the basement to the attic was clean and in good order

The building is heated with hot water and supplied with town water and gas. There is now accommodation for 75 patients. Admissions since the 1st October, 72; deaths, 2. Books well kept.

I beg to report that I made an inspection of the Hotel Dieu Hospital, Windsor, on the 19th October. The patients then under treatment numbered 14, 7 men 6 women and one child. There were 5 deaths during the year.

The dormitories, private rooms, dining-rooms, dispensary, bath-rooms, and water-closets were in good order. The books also were properly kept.

Total	-	\$1,218 30

INSPECTIONS.

I beg to report that I visited the St. Joseph's Hospital, Chatham, on the 15th September.

The Institution was opened on the 1st October 1890, in temporary premises leased for the purpose. A new building is now being erected, at a cost of \$17,000, which will accommodate from 40 to 50 patients. This will be ready for occupation at an early day.

There were 7 patients under treatment at the time of my visit, and the number admitted since the 1st October, 1890 is 62. There were 4 deaths during that period. About one-third of the patients contribute from \$2.50 to \$6 per week. The building was in satisfactory order; the patients' rooms were clean and well kept. There is a good staff of nurses and medical men in attendance.

The Sisters of St. Joseph having made application to have their Institution placed upon the list of charities receiving aid, I have the honour to recommend that an Order in Council be passed, ordering that the St. Joseph's Hospital Chatham, be taken as named in Schedule "C" of the Charity Aid Act, and receive aid accordingly.

I made an inspection of the St. Joseph's Hospital, Chatham, on the 25th June. This is a new brick building, three stories high, well located on the banks of the River Thames. It is heated with hot water, and supplied with town water and gas. The ventilation and drainage are good, and the plumbing is very complete. There are three acres of land.

The Institution has now thirty-two beds, with room for twenty more when required. The public and private wards and rooms, the basement dining-rooms, wash-rooms and water-closets were all in good order. There were nine patients under treatment, 5 men and 4 women. About two-thirds of the patients pay from \$2 to \$6 per week. Admissions during the year, 80; deaths, 7. The books were found to be correctly kept, and the Institution is evidently well managed.

I beg to report that I made an inspection of the St. Joseph's Hospital, Chatham, on the 17th October. There were on that day, 17 patients, 8 men, 8 women and 1 child. I found every department in good order. There is a good staff of nurses and medical officers.

The building is heated with hot water, and supplied with water from the town water-works, and lighted with gas. The ventilation and drainage are good. The books are well kept.

INSPECTIONS.

The trustees of the General Hospital, Stratford, having made application to have their Institution placed upon the list for aid, under the Charity Aid Act, I made an inspection of this Hospital on the 6th October, and beg to report as follows :

It is well located on high ground near the city. The building is of brick, three stories in height. The grounds are five acres in extent, and there is good drainage. Only one-half of the building is completed at present, but the accommodation thus afforded is quite sufficient for immediate requirements; and it is the intention of the committee of management to proceed with the work on the other half of the structure without delay.

The building is heated with hot water and lighted with gas. The water supply is from the city water-works. The fittings and plumbing in the bath-rooms and water-closets are of the most improved designs and construction.

The dining-room and kitchen are on the third floor, the first and second floors being occupied for hospital purposes.

The operating room, dispensary, and private wards are well arranged and fitted up.

The Hospital was opened for the reception of patients on the 7th May, 1891, and up to the date of this inspection thirty patients have been received, sixteen have been discharged and four have died.

The staff consists of lady superintendent, two nurses, one male and two female servants.

All the city physicians are on the medical staff.

The Trust Board of this Hospital having asked to have it reported upon with a view to its being recognized under the provisions of the Charity Aid Act.

I have the honour to recommend that an Order in Council be passed ordering that the General Hospital, Stratford, be taken as named in Schedule "A" of the Charity Aid Act, and that it receive aid accordingly.

I inspected the General Hospital, Stratford, on the 10th May. The building occupied is a new brick structure four stories in height. It is heated with hot water and is supplied with city water and gas. The drainage and ventilation are good. The public wards, dispensary, operating room and private rooms were all clean and in nice order. There were 10 patients under treatment, 4 men and 6 women. Admitted during the year, 45; deaths, 3. Most of the patients pay from \$2 to \$10 per week. There are three nurses and a good staff of medical officers in attendance.

The bath-rooms, water-closets and wash-rooms were well fitted up and in good condition. The books were found to be properly kept.

I visited the General Hospital, Stratford, on the 14th Sept.

This is a new Hospital, well situated, having good drainage and grounds. The building is heated with hot water and is supplied with city water, and lighted with gas. Every department was in good order, and there is a good staff of nurses and medical officers. There were 5 patients—2 males and 3 females under treatment. The number of patients received since the 1st October was 72. The number of deaths during same period was 9.
